Peter Zachar (Auburn University at Montgomery)

## Conference Content:

This is the fourth conference in the series on theoretical and conceptual issues in psychiatry. This time, we are returning to the seminal issue of Psychiatric Nosology particularly in light of the revision processes recently completed for DSM-5 and still in progress for ICD-11, as well as the launch of the Research Domain Criteria (RDoC) project by the NIMH.

## Sponsor:

The sponsor is the Psychiatric Service of the Capital Region of Denmark (RHP). The conference is organized jointly by Psychiatric Center Hvidovre and Center for Subjectivity Research, University of Copenhagen

## Registration:

The conference is free and open to all, but prior registration is required.  
Please register at webpage:  
[cfs.ku.dk](http://cfs.ku.dk)
